

Property Risks in Hawaii

Market Update

Many will agree there are more players in the E&S marketplace than ever. In addition, the standard markets are eating up accounts they would not have considered a few years ago in an effort to increase their premium volume. Who knows how long it will last!

Wholesale & Brokerage Expertise

Worldwide Facilities, Inc. has been a steady presence in the Hawaii marketplace for over ten years. Our experienced brokers will work with you to place your accounts to get the best value for your client's premium. We represent many carriers and our in-house underwriting authority provides you

with quick quotes on program business. For accounts that require more attention or have more risk than our contract markets offer – count on us. We represent the largest and most reliable E&S carriers in the marketplace.

Underwriting Overview

Properties built after 1970 are our specialty, but if your client's property has updated wiring, plumbing and roofing, we're the ones to call. Give us an opportunity to show you our "Best" terms. Send in a completed application, currently valued loss runs and as many details of the property as possible. Find out how flexible we can be – and how quick we can get you those quotes.

Who to Call
