WORLDWIDE FACILITIES, INC. ANNOUNCES NEW CALIFORNIA RESIDENTIAL CONSTRUCTION PROGRAM FOR SPEC AND CUSTOM HOME BUILDERS AND REMODELERS

Los Angeles, CA -- July 27, 2006

WORLDWIDE FACILITIES, INC. is pleased to announce a new Residential Construction program in California.

Designed for Spec Home Builders, Custom Home Builders, and Remodelers, the new program will be supported through a new, A+ XV approved Surplus Lines Facility on a 2004 ISO CGL Occurrence form. Project specific policies are also available.

Target business classes include developers with up to ten new housing starts per year and up to five homes in any one development. The program is not open for new ventures, and a minimum of five years in operation is required. Prior tract or condo jobs are acceptable, but Prior Work will be excluded.

Limits of up to \$1mm/\$2mm/\$2mm are available. The program's minimum premium is \$25,000 and the minimum deductible is \$5,000.

Worldwide Facilities is accepting submissions for business effective August 1, 2006.

As one of the largest independently owned wholesalers domiciled in the Western United States, Worldwide Facilities markets all lines of Casualty, Property and Professional Liability insurance and enjoys expertise in many industry segments including Oil and Gas, Construction, Environmental, DIC, Marine and Financial Services. In addition to its headquarters in Los Angeles, the company has offices in Irvine, Phoenix, Seattle and Atlanta.

For more information about this program or to discuss a specific Construction risk, please contact your Worldwide Facilities broker or contact us at www.wwfi.com.
