

Drones

Worldwide Facilities now offers both liability and physical damage (hull) coverage for a drone / unmanned aircraft and its equipment. Minimum premiums start at \$1,000.

TYPES OF AIRCRAFT

- All manufactured UAV aircraft
- Homebuilt UAVs; with prior underwriting approval

USE

- Must be under FAR Part 107, 333 Letter or COA
- Other uses subject to prior underwriting approval

BASIC RISK INFORMATION

- Application
- Pilot Experience Records or a Pilot / Operator summary of experience
- Contracts containing an indemnification clause (if applicable)
- An invoice or breakdown of the value of the drone, remotes, and any attached equipment
- Confirmation that the operator has a Light Sport or more advanced FAA pilot certificate
- If the drone is flown indoors at all, the will require as much detail as possible as to the surroundings and the purpose of the indoor use
- Confirmation that all use will be conducted under FAT pt. 107, 333 Exemption or COA
- We will need FAA / DOT registration number to show proof of registration

QUALITY ACCOUNT PROFILE

- Maximum operating weight shall not exceed 55 lbs
- Use shall be aerial photography, videography, or aerial survey
- No more than 200 hours flown annually per vehicle
- Max number of vehicles shall be two (2)
- Has a 333 letter or has applied for one
- If no 332 letter provide why the exemption should be made (flying under blanket exception or other known reason)
- UAV operators have completed some formal initial training or are licensed pilots holding a FAA pilot certificate
- The UAV has completed the registration process with the FAA and as a registration number
