

# Financial Services: Errors & Omissions Liability

An Errors & Omissions (E&O) Liability Policy protects a company from claims if a client holds the company responsible for errors or the failure to perform work or service as promised. Any company that provides a professional service to others for a fee has an exposure to litigation.

Worldwide Facilities professionals are dedicated to the E&O marketplace. We represent a wide variety of specialty MGA and brokerage markets and can insure virtually any class of business- standard or non-standard.
