Natural Catastrophes

Flooding exposures are a year-round exposure depending upon which part of the country you are in. But not all flood policies provide coverage for mudslide / mudflow / landslide ([see our definition flyer](#)). Whether it is intense rain storms or hurricane-induced flooding (Hurricane Matthew & North Carolina, Baton Rouge, Houston, California), are your insureds prepared for the unexpected damages / losses they may suffer a BI Loss, even if they don't have any physical damage? Are they properly covered in the event they are forced to evacuate?
