

Course of Construction

Did you know that roughly 6% of the nation's GDP comes from construction spending with more than \$1.1 trillion dollars of construction projects in play at this time?

Let our Property Team help you with all your Builders Risk needs. We specialize in jobs that range from the smallest bricks and mortar risks to the largest, most complex engineered risk. Minimum premiums start at \$1,000.

TARGET CLASSES

- New, ground-up construction for projects of any construction type including wood frame
- Mid-term projects where coverage is now required for any reason
- Jobs requiring Earthquake, Earth Movement, Flood or Hurricane coverage
- Renovation projects including structural and non-structural
- Public work jobs including pipeline installation, bridges, tunneling and road construction
- Engineered risks including power generation, revolutionary or prototypical equipment installation, and dams: Coverage can be expanded to include operational testing for each of these jobs
