

STOCK THROUGHPUT QUESTIONNAIRE

Answers to the following questions should place us in a position to make initial indications.

1. Name of Assured:
Address:

2. Brief description of Assured's operations (including manufacturing etc, where applicable):

3. Sales figures for the last complete financial year and if possible estimates for the forthcoming period:

4. Details of all transit Exposures including:-

- a) Total Values shipped (including Basis of Valuation used):
- b) Split of values between imports:
 exports:
 inland transits:

5. Where does the Assured's responsibility for incoming and outgoing transits commence and cease?
(A split of values reflecting this is of much assistance)

Reference should be made to the various stages of the risk between commencement and cessation of the Assured's risk, possibly in the form of a flow diagram.

6. Split of values over types of carrier used i.e. own vehicle, common carries:

If any transit are per common carrier, are any waivers of subrogation given?

7. Maximum value any one transit:

8. Average value any one transit:

9. Details of all Stock (i.e. Inventory) Exposures including:
- a) Total monthly maximum value at risk. Include Basis of Valuation used:
 - b) Total monthly average value at risk. Include Basis of Valuation used:
 - c) Maximum value at any one location at any one time:
 - d) Average value at any one location at any one time:
 - e) Brief details of number, situation and type of location at risk:

10. Premium/Loss Statistics in respect of all proposed coverages i.e. Inland Transit/Overseas Transit/Stock and Inventory for the past 3 years (or 5 years if possible). Specific reference should be made to show if loss figures are "group up" or net of any deductible.

11. A copy of the Assured's latest Annual Report may be of use to use in preparing our indication:

12. Please note that other items such as Furniture, Fixtures and Equipment along with E.D.P. and mobile equipment can also be included for Underwriters consideration. To assist in our approaches on these items answers to the following are of great help:
- a) Total Values at risk:
 - b) Maximum Value at any one location:
 - c) In the case of Mobile Equipment a schedule of individual values:
 - d) Brief description of items to be covered
 - e) Premium/Loss Statistics as per 10 above:

Please continue answers on a separate sheet if necessary

SUPPLEMENTARY SECTION FOR MANUFACTURERS:

13. Please describe the manufacturing process undertaken:

14. Are any of the processes considered hazardous?

15. Do your current insurance protections make any special provisions for the manufacturing exposures?

16. Any other general comments which may assist underwriters to assess the manufacturing exposures:
